

Corporate Social Responsibility

At MECC we're all facilitators

It's in our DNA to take care of every little detail

Not only for our events

But also for the future

So let's grow... Together

Not bigger but better

We make conscious choices

Cause every improvement matters

By supporting local initiatives.

We support our environment.

And create positive impact for next generations.

Our mission

We bring together national and international people and companies in Maastricht to generate an economic spin-off for the city and region. Corporate Social Responsibility is always an integral part of our policy and operations.

Our vision

We are Europe's most hospitable venue for trade shows, conferences and events. We love a challenge: we're go-getters who aren't satisfied until we get the best results. Our personal approach, 5-star service and eye for detail can help elevate every event to the next level. We exceed expectations.

We take care. For the future.

The MECC Maastricht story is about a team of people. Our people are the backbone of our sustainability process. A team that acts based on their firm conviction to give more than people expect without losing sight of our environment.

We grow together. Not bigger but Better.

A sustainable venue is our responsibility, and we deliver the next-level experience together. Together, we set the bar high to achieve the maximum sustainability gains and we make the difference.

We support our environment. For positive impact.

We generate and support an economic and sustainable spin-off effect for the city and region. Each year, the conferences, trade shows and events held at our venue are attended by thousands of national and international visitors. Our economic impact creates jobs, makes a contribution to the business climate, and adds value for various sectors.

Our supporting facts.

- We guide clients in their drive to be more sustainable, from start to finish. We offer ‘Beyond Boundaries’ service.
- We have had Green Key Gold certification since 2010.
- Our conference center is built according to BREEAM certification.
- We are also dedicated to helping several charities (such as Maas Clean Up).
- We provide ongoing support to Trees for All with an annual donation, contributing to global reforestation and a healthier climate.
- Green Team; colleagues from various departments help implement the sustainability program and are ambassadors for promoting sustainability within their own teams.
- We offer a platform to facilitate discussions on moving towards a sustainable transition.
- We aim to be a good employer for current and future generations
- We get involved in energy and water-saving campaigns throughout our organisation.
- Our fleet of lease vehicles is fully electrified, contributing to a more sustainable and environmentally friendly mobility policy.
- We are gradually replacing all the lighting in our building with LED lighting.
- We procure sustainable products and services where possible.
- We have charging stations for electric cars.
- We have 2,586 solar panels that together generate 928,000 kWh per year.
- We aim to fully electrify the generation of heat in our building using heat pumps and e-boilers. A heat pump is currently being used in the conference centre.
- We work with our partner L’Ortye to ensure waste is properly separated.
- We have made a commitment to reducing CO2 46% by 2030 as compared with 2019 figures. We are on our way to becoming a net-zero business in 2050 (SBTi).
- Our sustainable catering range is in line with Green Key guidelines and is continuously optimised.
- Our in-house caterer, Vermaat, has been committed for years to making the world of food and drink healthier, more sustainable, and more socially responsible. Learn more about their ambitious goals in their Food Vision 2027.
- We use the fewest possible single-use plastics.
- Our in-house Bar Bistro SAAM values not only serving delicious dishes but also making a positive impact on our surroundings. [Read more about their contribution here.](#)
- We prepare a sustainable long-term maintenance plan: we always do our best to arrive at the most sustainable solution.

Beyond Boundaries
for positive impact.
